## RS. O F. LANE PASSES AWAY AT HOME HERE

ALL KNOWN WOMAN CALLED  
BY DEATH FRIDAY  
AFTERNOON

GENERAL SUNDAY AT 2 O'CLOCK

To Greencastle With Hasband  
A Few Years Ago. Burial In  
Bainbridge Cemetery.

Mrs. Mary Wendling Lane, wife of  
O. F. Lane, died at the home on  
Indiana street, Friday after-  
noon at three o'clock, after a short  
illness. Mrs. Lane was 78 years of age  
and had been in failing health for  
some time.

Mrs. Lane came to Greencastle to  
live a few years ago, when she and  
her husband moved from Bainbridge,  
former home for many years,  
because of her long residence  
and because of her work in the  
Bainbridge churches of the county.

Mrs. Lane was born in Shelbyville,  
on April 1, 1852. She was united  
in marriage to Oscar F. Lane, pastor  
of the Christian Church in Shelbyville,  
on November 21, 1872 by Elder  
T. Taylor. To this union, eight chil-  
dren were born, six of whom, with  
husband, survive. They are Mrs.  
Lane Lingelbach, Philadelphia;  
Mrs. W. Lane, Bainbridge; Oscar B.  
Bainbridge; Mrs. C. C. Wyson,  
Bainbridge; Edwin R. Lane, Bain-  
bridge; and Miss Nellie Ruth, Green-  
castle.

Mrs. Lane was educated in the public  
schools in an academy in Shelbyville,  
and in a girls' college at Dover,  
of which E. C. White was head.  
She took a full course in music  
and was a graduate of the Cincinnati  
conservatory of music. When her  
husband was compelled to give up  
his musical work because of broken  
health, she moved to the country to  
do what work she could. Being too  
old for her little children,  
she taught them at home,  
and in the requirements of  
common school branches until  
they were nearly through  
high school requirements.  
She was unusually alert and bal-  
anced, but was hindered much  
by her health. She was really a suffer-  
er for twenty-two years but bore it  
with wonderful patience and resigna-  
tion. She was for many years presi-  
dent of the Ladies Missionary Society,  
loved God and humanity. She  
loved Christ, and His ordinances were  
dear to her. She was a true and  
faithful companion of her husband for  
58 years. She loved and did  
what she could for her children and  
to give them the rich consolation in her  
care and unselfish life. She  
loved humanity, and it was ever her  
desire to do like Mary of Bethany,  
and she could. Surely the world  
is the better for her having passed  
on.

The funeral will be held from the  
Bainbridge Church Sunday afternoon at  
two o'clock, the Rev. Bruner officiating.  
Those wishing to view the remains,  
will call at the Rector Funeral Home  
time before 1 o'clock Sunday. The  
funeral will not be opened at the  
church. Burial will be in the Bain-  
bridge cemetery.

MERCURY UP TO 89  
Friday was the hottest April 11 in  
Greencastle since the weather bur-  
eau was established there in 1871.  
The mercury soared to 89 degrees at  
5 p. m. yesterday, one degree low-  
er than the record for any April day.  
Weather forecasts today indicated  
temperatures in the state would drop  
slightly. Showers predicted for  
Friday night were expected to  
bring cooler weather with the  
temperature rising again tomorrow.

## SEEKS DIVORCE

After ten years of matrimony to  
the day, Irene Sears, 204 Vine street,  
has filed suit for divorce in the Put-  
nam circuit court against Jesse Sears,  
on grounds of cruel and inhuman  
treatment and failure to provide.

According to the complaint the  
couple were married April 2, 1920, and  
separated April 2, 1930.

The plaintiff alleges that on the  
last date the husband took the furni-  
ture out of their home and had the  
same taken to his mother's. She al-  
leges he made no provision for his  
wife and children. The wife further  
alleges that the husband has sworn  
at her and abused her.

A divorce, custody of three minor  
children, and attorney fees, are asked  
by the wife.

Glen H. Lyon is attorney for the  
plaintiff.

## FARM ESCAPE GETS USUAL PRISON TERM

BENNETT MOORE RECEIVED U.S.  
UAL PENALTY. SOB STORY  
GAINED PUBLICITY

Bennett Moore, 43-year-old machi-  
nist, whose sob story gained him  
wide publicity when he was captured  
in Chicago March 29, failed to receive  
any sympathy when arraigned before  
Judge James P. Hughes in the Put-  
nam circuit court Saturday morning,  
and he was given the usual 1 to 5  
year term in the Indiana state prison.

Moore escaped from the farm on  
March 14 while serving a term im-  
posed in Randolph county, according  
to the affidavit filed by farm officials.

When arrested in Chicago, Moore  
told newspaper men that he had served  
a 30-day sentence and part of a  
\$100 fine received on a prohibition  
law violation charge, when he grew  
desperate because of the destitute  
condition of a wife and seven children  
in Richmond, and ran away from the  
farm in order to earn money to aid  
them.

Farm officials who brought Moore  
here for sentence Saturday morning  
following extradition hearing in Chi-  
cago Thursday which resulted in  
Moore being turned over to them, said  
Moore had a long criminal record.

Farm authorities said that Moore's  
past record included three terms on  
the Penal Farm for intoxication, and  
one 3 to 15 year sentence in Ohio for  
burglary.

## BRITAIN'S SEA SUPREMACY TO SOON BE ENDED

THREE-POWER TREATY EXPECT-  
ED TO BE SIGNED ON  
THURSDAY

HOOVER MAKES SETTLEMENT

United States, Japan And England  
Reach Agreement As Result Of  
London Navy Conference

WASHINGTON, April 12 (UP)—  
Great Britain's struggle to maintain  
undisputed mastery of the seas—  
gained with defeat of the Spanish ar-  
mada in 1858, formally will be ended  
Thursday in a three-power naval  
agreement to be signed by Britain,  
Japan, and the United States.

President Hoover pronounced this  
final abolition of competitive building  
the most vital feature of the London  
treaty in which Anglo-American na-  
val parity is to be acknowledged and  
a proportionate Japanese strength ar-  
ranged.

With receipt of word that the naval  
agreement probably will be signed in  
London late next week, officials are  
wondering when Mr. Hoover will make  
his first move to have the instrument  
ratified by the senate and what the  
prospect is for ratification.

It is yet unknown whether the Pres-  
ident will submit the treaty immedi-  
ately after the naval delegation re-  
turns from London or whether he  
will wait until Congress reconvenes  
next fall. In either event, ratification  
probably will be long delayed, as the  
senate foreign relations committee  
plans to hold extensive hearings on  
the instrument before reporting it.

Thus far, senators have been re-  
luctant to comment on the treaty in  
its final form, though several of  
them made known their opposition  
to inclusion in it of a consultative  
part.

Mr. Hoover estimated the treaty  
would save \$2,500,000,000 to the three  
participating nations, of which \$1,-  
000,000,000 will represent the Ameri-  
can share. These estimates were based  
upon comparison of what the Anglo-  
American parity would cost on the  
high tonnage levels under con-  
sideration by the 1927 Geneva Con-  
ference in 1926. The Geneva basis  
of parity, proposed by Great Britain  
and rejected by the United States,  
would have created a British navy of  
1,500,000 tons. Mr. Hoover said it  
would have been useless to seek popu-  
lar support in this country for naval  
expansion to that figure in behalf  
of parity.

London conference tonnage levels  
for Great Britain and the United  
States are about 1,335,000 tons  
each, a reduction of 364,000 tons be-  
low the Geneva figure. Japan's navy  
will aggregate about 800,000 tons.

About 5 o'clock they were called to  
the home of John Waddle, west

trash fire fell on the roof, setting it  
afire. The small blaze was ex-  
tinguished when the firemen arrived.

Burning trash at Pittman's Pond,  
owned by the University, resulted in  
another alarm about 7 o'clock.  
No damage was done at either fire.

## 19 MET DEATH IN BUS-TRAIN CRASH FRIDAY

HORRIBLE TRAGEDY OCCURRED  
SOUTH OF ALBUQUERQUE,  
NEW MEXICO

THREE PROBES UNDERWAY

Driver Of Bus Evidently Attempted  
To Beat Fast Train To Crossing  
Nine Hurt.

ALBUQUERQUE, N. M., April 12  
(UP)—The bodies of 19 persons lay  
in morgues here today, victims of  
the worst crossing accident in the  
history of the West, while grief-strick-  
en relatives sought to identify their  
loved ones from the mass of charred  
human wreckage.

While preparations were made for  
the removal of the bodies, three sepa-  
rate investigations were begun to  
determine responsibility for the crash  
between a Santa Fe train and a huge  
Pickwick Greyhound motor stage yester-  
day near Pueblo Isleta, 12 miles  
south of Albuquerque.

The bus was en route from Los  
Angeles to Denver, with 28 occu-  
pants, including the driver, F. B. Wil-  
liams, of Albuquerque. Witnesses  
said the driver slowed down nearing  
the crossing, but apparently thought  
he could beat the speeding train  
across. He was about one hour be-  
hind schedule, officials of the bus  
line here said.

Midway of the tracks, witnesses  
said, Williams swerved sharply in a  
futile attempt to avoid the accident.  
The locomotive, although the en-  
gineer had slowed speed somewhat on  
seeing the stage, plowed into the mid-  
dle of the bus, shattering it into  
a thousand splinters. The gasoline  
tank exploded, converting some of the  
dying into human torches.

Mrs. P. N. Olguin, an Indian wo-  
man, who witnessed the tragedy, said  
bodies were strewn along the right  
of way, some decapitated, other arm-  
less and legless.

All but three of the bodies had been  
identified today. Nine survivors were  
in hospitals here in serious condition.  
Several were not expected to live.  
The driver was among those killed.  
Investigations were put underway  
by the district attorney's office here,  
representatives of the Santa Fe, and  
officials of the Pickwick Greyhound  
lines who hurried here by plane from  
Los Angeles. A coroner's jury sum-  
moned immediately after the crash,  
returned an open verdict.

trailing the O'Hair machine, ploughed  
into the rear of the O'Hair machine,  
forcing it into a truck hauling tar.  
The O'Hair car was caved in and  
almost entirely covered with a coat  
of tar. The interior of the car also  
was sprayed with tar.

The Chevrolet hit the pole squarely

## Dates Of Operetta Moved To May 9, 10

Owing to conflicts in the University  
schedule, the dates for "The Mikado,"  
to be produced by music school, have  
been changed from April 24, 25 to  
Thursday and Friday evenings, May  
9 and 10. There will also be a matinee  
on Saturday afternoon May 10 for the  
benefit of Greencastle school children.

In rehearsals for the operetta the  
principals have been showing ability  
both as singers and actors, while the  
members of the chorus have also dis-  
played talent. The dancing will be  
another of the attractive features of  
the show.

The scene of "The Mikado" is laid  
in the Japanese town of Titipu. Special  
costumes and scenery are being  
designed. There is much humor and

dious, may be fully appreciated by  
the average person as well as the  
trained musician.

### Lesson for April 13

#### THE CHILD AND THE KINGDOM

LESSON TEXT—Matthew 13:1-14:19.

**GOLDEN TEXT**—Suffer little children, and forbid them not to come unto Me: for of such is the kingdom of heaven.

**PRIMARY TOPIC**—Jesus, the Children's Friend.

**JUNIOR TOPIC**—Jesus the Friend of Girls and Boys.

**INTERMEDIATE AND SENIOR TOPIC**—Growing in the Kingdom.

**YOUNG PEOPLE AND ADULT TOPIC**—The Sin of Neglecting and Misguiding Children.

**I. The Greatest in the Kingdom of Heaven (vv. 1-4).**

1. The disciples' question (v. 1).

The prominence given to Peter in connection with the announcement of Christ's purpose to build the church and the payment of tribute with the money in the fish's mouth, provoked jealousy on the part of the other disciples. The transfiguration scene revealed the divine person and the program of His kingdom. Seeing that the kingdom was to come to realization despite the tragedy of the cross, disciples wished to know their place of rank in the kingdom.

2. Jesus' answer (vv. 2-4).

He taught them by placing a little child in their midst.

(1) Condition of entrance into the kingdom (v. 3). The great question was as to whether they were really in the kingdom. Their behavior revealed the fact that they needed conversion. Before they could even see, much less enter into, the kingdom, they must be born from above (John 3:3, 5).

(2) Whosoever possesses childlike humility is the greatest (v. 4). The child is dependent, lowly and modest. Those who have been born again, or converted, have these characteristics.

**II. The Lord's Identification With His Believing Ones (vv. 5-9).**

1. Receiving the believer in Christ's name is receiving Christ (v. 5).

Through faith in Christ we become God's children and so completely are our life interwoven with His that He regards treatment of us as treatment of Himself.

2. The peril of causing a believer to stumble (vv. 6-9).

To cause to stumble means to give occasion for a moral fall. The particular reference was to the carnality and selfishness which were expressing themselves in their contention for preeminence. Their behavior was not only an injury, but a stumbling block to others. Everything causing one to stumble, though it be as vital as hands and feet, should be removed.

**III. Believers Are Specially Cared for by the Heavenly Father (vv. 10-14).**

1. They are under angelic guardianship (v. 10).

So precious is the believer in God's sight that angelic messengers are provided (Heb. 1:10). These angelic messengers have access to the very throne of God, even beholding His face. So high is the honor bestowed upon believers that the highest angels are sent to guard them.

2. The Son came especially to save such from their lost condition (vv. 11-14).

The Heavenly Father does not will that any one of these should perish. They are objects of the Father's seeking love. The salvation of the humble believer has been secured by the incarnation and the sacrifice of the Good Shepherd.

**IV. Jesus Receiving Little Children (Matt. 19:13-15).**

We should carefully note the setting of this text. Jesus had been speaking of the sanctity of marriage, which is the bulwark of the home. Into the sacred enclosure of the home comes childhood to complete and ennoble it.

1. Children brought to Jesus (v. 13).

Doubtless they were brought by their parents. Many parents today who are careless as to themselves, desire to bring their children into touch with Jesus Christ.

2. Rebuked by the disciples (v. 13).

They regarded children as too insignificant to engage the Lord's attention. Christ places high value upon children.

3. The disciples rebuked by Christ (v. 14).

These words uttered by the Lord have placed a peculiar dignity upon the child. It is Christlike to care for children and no service in the world pays such large dividends.

4. Christ laid His hands upon the children (v. 15).

You take the face value of all your insurance policies and add them together.

Then divide by 20.

The answer equals the yearly income your wife or other beneficiaries will receive.

This assumes, of course, that your life insurance money will be properly invested at five percent.

This brings up two questions:

1—Are you carrying enough life insurance?

2—Are you sure that your life insurance money will be properly invested?

We do not write life insurance policies, but we will be glad to tell you how you can set up a Life Insurance Trust to make sure that your insurance does the work you intend it to do.

See our Trust Officer about this.

## GENERAL BUSINESS CONDITIONS

From the Monthly Bank Letter for April Issued by The National City Bank of New York

## Courtesy of Central National Bank and Central Trust Co.

THE state of general business has shown seasonal improvement during the past month, according to the monthly review of conditions prepared by The National City Bank of New York, although the steel industry, which made a fine recovery to February 15, has since dropped from 80 per cent of capacity to slightly under 75. Even so, the review goes on to say, production recently has been at the rate of slightly less than 50,000,000 tons a year, or larger than in any calendar year save 1929. The decline in steel is not surprising in view of the fact that that industry evidently had forged ahead of general business and that buyers are following an extremely cautious policy.

Continuing, the bank says, it is now evident that the failure of business to make a more rapid recovery since the first of this year is due to the world-wide extent of the reaction. The fall of prices of staple commodities has been even more serious to other countries. The loss of purchasing power and the enforced policy of economy in all countries are reflected in this country's trade and are a factor in the lessened activity in most of the industries as compared with a year ago.

## ROAD UPKEEP HOLDS BACK NEW BUILDING

Repair bills on improperly built roads are restraining highway improvement to an unbelievable degree.

A survey shows that in many communities the upkeep cost of good surfaces is no more than \$25 per mile while in numberless instances citizens are paying out from one to two thousand dollars or more to keep a mile of road in something like a travelable condition.

The reasons for this cost variation are not secrets. The roads that cost little to maintain are properly paved. The roads of large upkeep cost are either of dirt or gravel or of some non-permanent surfacing material.

In Cameron county, Texas, where a little less than 200 miles of concrete pavements have been constructed by bond issue, the pavement upkeep cost averages around \$25 per mile per year. This is in a terrain where sand and fine soil subgrades are not very stable, but by paving in accordance with accepted scientific methods the excessive upkeep cost faced by careless communities has been eliminated.

The pavements in Cameron county, and in adjoining counties for that matter, demonstrate that the citizen can expect smooth riding surfaces.

**JUST BOYISH PRANKING**  
PRESTON, Idaho (UP)—Two young men consumed part of a jug of liquor, and, finding no squirrels to shoot, used electric street lights for targets. They blazed away with six shooters until they had extinguished all 22 lights in Weston, the lone street light in Dayton, and then turned their attention to a school house, breaking 27 window panes. Oscar Linquist, 22, and Theone Colburn, 21, were fined heavily for the shooting spree.

that last, without the endless excuses offered for the roughness and high cost that must go with unstable roads.

To most laymen road building is a mysterious process which they think best taken care of by elected or appointed officials. There is a strong tendency for the average motorist to overlook the construction by his community of pavements that clearly are not designed for prolific modern traffic. He may reason, forgetting costs, that "anyway he doesn't have to drive in the mud." But let the average motorist remember that electric washing machines have all but ended the washboard business, and that similarly modern pavement should replace washboard roads.

The year in and year out payment of excessive road charges is uneconomical and uncomfortable any way you look at it. Roads that carry any noticeable volume of traffic should be well paved, by bonding if necessary. For even bond issue roads are not expensive despite the bugaboo of interest. The savings to motorists alone in driving costs more than make up for the bond interest and in addition exorbitant upkeep costs are ostracized. More good pavements can be built with natural savings.

## CATTLE FEEDERS MEET

AT PURDUE APRIL 25  
M. H. Conway, in charge of the research department of the National Producers' association at Chicago, will be the principal speaker at the annual spring meeting of the Indiana Cattle Feeders' association which will be held at Purdue University Friday, April 25. This announcement was made today following receipt of word from Conway that he would

tion and overexpansion, have reversed the equation of the supply of and demand for credit, and resulted in an accumulation of short time funds which is pressing on the money markets of the world. And besides these worldwide factors there has been in this country the added influence of a gold import movement approximating \$120,000,000 since the first of the year (chiefly from Japan), and a central banking policy favorable to easier money.

The bond market's convincing demonstration of a return to vigorous health is accounted for in the review by several factors, including the spreading ease in interest rates, decline of commodity prices, decrease in volume of new offerings in February, and the increased demand for dollar bonds from European sources. While new issues increased in volume in March, the market showed no signs of congestion. Concluding, the review says, "Bond dealers are generally looking forward with confidence to a good market. This belief is based largely upon the assumption that money rates are unlikely to remain at relatively low levels for some time and that the volume of new issues will not prove too great for the market to absorb."

## NEW KIND OF A HITCH HIKER HERE

A new kind of a hitch hiker appeared on the National Highway yesterday. This new hitch hiker travels in a three-wheeled contraption resembling a sulky with an additional wheel in front. The wheels were evidently taken from a motorcycle and the vehicle is equipped with a steering lever and a heavy rope by which he hitches on to any auto driver who will give him a tow. The occupant of the strange vehicle is a man about 50 years old and is a cripple and walks with crutches when he is not on his sulky. He unhitched from towing machine here late yesterday afternoon and enlisting the services of some boys to pull him steered his machine on the sidewalk and proceeded to enlist donations by selling cards with a short poem printed on them. When he had completed his canvass of National avenue he picked up another tow and continued on his way east.—Brazil Times.

## for Economical Transportation

it's wise  
to choose  
a SIX!

There is one sure way to get greater value in a low-priced car today—choose a Six!

This greater value is instantly obvious when you drive a Chevrolet Six. You notice first of all its greater smoothness. There is no tremor in the steering wheel—no rattle in the floor boards—no rumble or drumming in the body.

In addition to the finer performance of its six-cylinder motor, the new Chevrolet gives you truly remarkable economy.

Its six-cylinder smoothness saves the entire car from the strain and wear of vibration. This, of course, lowers the cost of maintenance and assures a longer-lasting, longer-satisfying automobile.

From the standpoint of operating expense, Chevrolet is equally economical. No other automobile consumes less gasoline and oil. No other shows a lower expense for tires. And

no other car costs less for service.

Because of its modern engineering, Chevrolet also assures a high resale value.

Chevrolet gives you fully-enclosed, weather-proof, 4-wheel brakes; a modern fuel system—with the gasoline tank mounted in the rear; four long semi-elliptic springs, mounted lengthwise in the direction of car travel. It gives you beautiful Fisher bodies built of combination hardwood-and-steel. It gives you a heavy, rigidly-braced channel-steel frame. And it gives you a full ball bearing steering mechanism.

Before you decide on any car in the low-price field, see and drive the Chevrolet Six. The more thoroughly you investigate, the more certain you are to conclude that it's wise to choose a Six—for value, for performance . . . and for economical transportation!

### VONCASTLE

"Footlights and Fools," the newest of Colleen Moore's entertaining screen stories, and the first of her dialogue pictures to include episodes in Technicolor, has been secured by the management for the Voncastles Theater, for an opening run tonight with midnight show and playing thru Tuesday.

This Vitaphone special offers the popular little star a wide scope for her exceptional talent in characterization, for her role includes highly interesting variations. She appears as a supposedly exotic French actress with an intriguing Parisian accent, in part of the story; impersonates a slangy Broadway chorus girl in another episode of the plot, and plays the greater part of her characterization in her own charming personality. Although "Footlights and Fools," recounts the humorous and dramatic adventures of a Broadway revue star, it is not solely a story of back-stage life. Miss Moore's two leading men, Raymond Hackett and Frederic March, do not portray theatrical characters, and the plot is built around a three-sided romance, with the eventual winner of Colleen Moore not being disclosed until the final moments of the picture.

Technicolor has been employed to enhance the beauty of several stage numbers, in which Colleen is supported by a huge ensemble of seventy-two brilliantly costumed show girls and dancers. It is in these color episodes that the popular song hits, "If I Can't Have You," "You Can't Believe My Naughty Eyes," and "Pilly Pom Pom Plee," are introduced, all of which are sung by Miss Moore.

In addition to Hackett and March, the supporting cast of "Footlights and Fools" presents Virginia Lee Corbin, Edward Mangel, Adrienne d'Ambri-court, Mickey Bennett, Cleve Howard and Sidney Jarvis in other important portrayals.

A Charley Chase talking comedy, "Snappy Sneezer," and Paramount sound news will complete the program.

### GRANADA

The most sensational and thrilling picture in a long, long time is George Bancroft, Paramount's deep-chested star in "The Mighty," playing Sunday and Monday and Tuesday at the Granada Theater.

This all-talking hit is a study in men. Bancroft starts off as the gunman who has much contempt for the law, so much contempt in fact that it takes four M. P.'s to put him in the army when he disregards a draft notice. He goes overseas as a private, his valor secures many decorations and promotions for him and he emerges a full fledged major and a national hero. On his way back to his old haunts he stops off to see the family of one of his buddies and is offered the position of chief of police which he accepts.

Esther Ralston is the sister of his old pal, and knows his past, but he does not know this. They are in love. A big police picnic is given in honor of Bancroft and his successful cleanup campaign. The gang prepares to strike. In the middle of the celebration he learns of their plans. The gang sends an old sweetheart of Bancroft's to tell his new love about his past, if he interferes, thinking this will stop him.

He decides to cast his lot with his new "gang" and leading over two score of mounted officers he speeds to stop the wholesale robbery. Machine guns crackle, the officers attack with hand grenades and all the mod-

ern implements of peace time war and Bancroft comes face-to-face with Oland.

The rest of this thrilling story you can see for yourself in "The Mighty," at the Granada Theater. In this cast are also Raymond Hackett, Dorothy Revier, O. P. Heggie, and Morgan Farley.

A variety of pleasing talking short subjects will afford additional amusement to the all-night program.

### SO OLD IT IS NEWS

(From the Banner, 1869)

"Articles of association have been filed for the Corvine Institute of Bainbridge. The capital stock is \$2,000 and the stockholders are W. W. Yeates, E. Marion Darnall, Daniel P. Thornton, Samuel O. Pearcey and David Ader."

"Past time has been inaugurated between St. Louis and New York. (On the Vandallia) One train makes the run of seventy-three miles from Terre Haute to Indianapolis in two hours."

In the Greencastle city election, May 3, 1869, the First Ward gave 117 votes for the Republican candidate for councilman; 63 for the Democratic; the Second Ward 824 for the Republican, 43 for the Democratic; the Third Ward gave 94 for the Republican, Alva Brockway, and there was no Democratic candidate. The Fourth ward had not yet been created.

### The Big Four

"The projected railroad is fact becoming a reality. Seventeen miles of the work has been let to Tenney & Wright, of Champaign, Ill. Their contract extends from five miles east to twelve miles west of Greencastle."

### Income Taxes Sixty Years Ago

In the year, 1868, one hundred and twelve persons paid income tax in Putnam county, a total of \$3,511. Those who paid one hundred dollars or more, that year, were the following: Jerome Allen, \$108; Edward H. Crow, \$217; T. C. Hammond, \$127; A. M. Lockridge, \$250; Franklin P. Nelson, \$189; J. B. Sellers, \$192; C. W. Talburt, \$199; D. E. Williamson, \$138. (Their taxes was one-twentieth of their incomes.)

### Early Land Speculation

In an article by John S. Jennings, in the Banner, 1869, he tells of his effort, some forty years before that date, to sell the lots on Vine streets now occupied by the postoffice and Dr. Zaring's property, to the trustees of Roberts Chapel for use in connection with their parsonage. Mr. Jennings, in a wild moment, had bought the lots for seven dollars and, when the church folks approached him to sell to them, he immediately jumped the price to thirteen dollars, and stood pat. The Methodists couldn't see more than ten dollars in the land, and they, too, stayed by their guns. There was discussion back and forth, but the three dollars difference was irreconcilable and the deal was off.

### A Daring Trip

"Col. J. M. Mahan has arrived home from California. He is the first citizen of Greencastle to pass over the Pacific railroad. He left Sacramento City on the 13th, reached Chicago on the 20th and arrived home the next day."

### The Longden Farm

"R. Z. Lockridge of Ashleys Mills, has bought the fine farm of T. O. Allen, one mile east of Greencastle, consisting of 163 acres, for \$21,000."

### AFTER CATTLE RUSTLERS
